

ACCESSING TEST HISTORY IN PARENTVUE

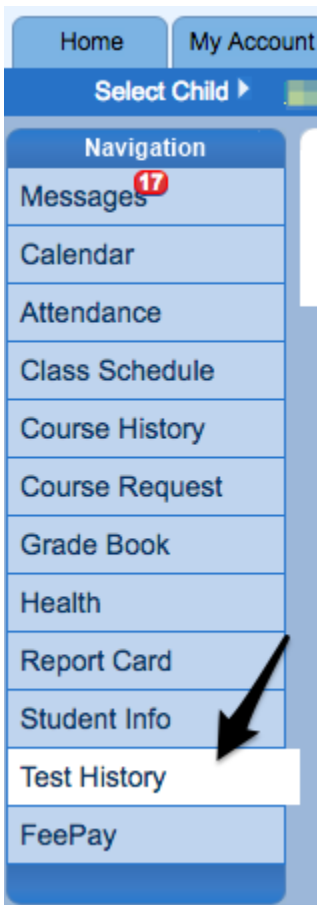

Parents and guardians can access student's test history online.

If you do not have ParentVUE, please visit your child's school for an access key and refer to <http://bit.ly/279PVUE>

Log into ParentVUE and select the child you want record for.

Click on "Test History"

Below the student's picture click on "Test History" again and you should be able to access your child's test record.

This will take you to an external website which will then show current and past test scores.
